2477 Bloor Street W, 2nd Floor, Toronto, ON M6S 1P7

## Osteopathic Manual Practitioner Position

**WEST END MAMAS is looking for qualified osteopathic manual practitioners to join us at our Toronto and Newmarket clinics. We are specifically looking for candidates with experience with pregnant people and babies.**

We are looking for one or more osteopathic manual practitioners experienced with perinatal health - with moms and babies, specifically. Work alongside many other perinatal professionals in a warm, supportive environment with some of the best patients you could imagine. We offer a fair split, supply just about everything for you and we have many staff development opportunities.

Our ideal candidate(s) would be able to work, in addition to one or more daytime shifts, at least one evening per week and one/two weekend days per month.

Our current team includes RMT, Naturopathy, Chiropractic, Acupuncture, Psychotherapy, Nutrition, Childbirth Educators, Yoga, etc. We have a large, multi-disciplinary team with solid management and operations, and excellent practitioner support. We understand that our clinics are only as strong as our practitioners, and we work hard to keep everyone busy and happy.

West End Mamas is Canada's Premiere location for perinatal health and wellness. Our flagship Toronto location opened in March of 2017 and has quickly become THE destination for perinatal wellness in the GTA. Our Newmarket location opened in May of 2019 and the pelvic case load is growing quickly. We do not accept MVA or WSIB cases at our locations.

Candidates must have a strong interest in women's health, be willing to leave their judgements about birthing styles at the door, be easy to work with (no drama please!) and have excellent verbal and written English skills. Most importantly, they must be willing to work as a team with other practitioners and support staff.

2477 Bloor Street W, 2nd Floor, Toronto, ON M6S 1P7

Our gorgeous facilities have plenty of space for our clients to practice safe physical distancing and we work hard to keep things disinfected and safe for all who come in the door, including our staff. Join our team of other RMTs, physiotherapists, chiropractors, naturopaths, psychotherapists, lactation consultants, doulas and childbirth educators.

If you are interested in this position, [please complete the form here](#) and attach your resume and cover letter.

To keep our clinics as safe as possible, we have all of the appropriate PPE for all of our practitioners, we have plexiglass at the reception desks, air filters for the clinic, plenty of disinfectant and a very strong and thorough covid policy document. We require all of our in-clinic staff and practitioners to be fully vaccinated against COVID-19.

Looking forward to hearing from you!
